

## Press Release

### WOLF-Garten – multi-star® ice scraper

### Don't give ice a chance

#### The only ice scraper with replaceable blade

Multi-star®, the ice scraper from WOLF-Garten is a genuine all-rounder. In winter it can deal with the thickest of ice. In summer, it helps remove the most persistent dirt. With its long handle, it is the perfect scraping tool for house and garden.

Thick sheets of ice often form under the snow, normally when it has thawed and refrozen. Or when the snow residue left after clearing is trampled to pact snow. That calls for really hard work. Luckily, WOLF-Garten has developed the perfect assistant, which is coming onto the market with the new winter collection.

The multi-star® ice scraper is the ideal tool for the toughest demands. The extras strengthened 15 cm wide blade can be easily replaced. All multi-star® handles can be combined with the ice scraper, so that ice doesn't stand a chance, anywhere.

But the innovative tool from the gardening professionals is not just the perfect helper for the colder months. During other times of the year, it can be used for a squeegee. Even persistent dirt can be removed thereby making it more effective than with other equipment.

Further information about on this subject can be obtained from MTD Products AG in 66192 Saarbrücken.
