The WOLF-Garten cleaning package

Cleaning made easy

An effective weapon against mosquitoes and cobwebs

WOLF-Garten not only does lawns, mowing and gardens. For the horticultural year 2011 there are important new products that make life easier. The multi-star corner broom can be lengthened to up to 5.70 metres, while the mosquito cleaner even has its own water tank.

In summer, of course, the spider likes to spin its gossamer cobwebs in the most inaccessible corners of the ceiling. And dust bunnies seem to be magically attracted from barely reachable corners. Anyone who likes to keep their house or apartment shipshape is all too familiar with this problem. The multi-star corner broom from WOLF-Garten offers a genuinely new way of tackling this difficult task.

Its innovative triangular shape enables it to extract fine threads and dust accumulations from just about any position. The optimised click system is ideally suited for all multi-star Vario handles. This efficient helper can be extended to a length of 5.70 metres. The operating angle, incidentally, can be set individually, which makes it much more convenient work with, as in the cleaning of edges under the roof or on a drainpipe.

It is not just spiders and dust that WOLF-Garten has declared war on – the new cleaning package also includes a mosquito cleaner.

Press Release

It is principally intended for car windows, as in the course of longish journeys dead insects can accumulate on the windscreen, which is a nuisance.

The innovative cleaning device is even equipped with a small water tank which is enough for 35 spray puffs pro filling, which can clean a fair amount of surface. And the mosquito cleaner comes not only with a handle, but also with an extension, for the Dormobile, for example.

An additional rough pad can be used for the mosquitoes that are hard to get off. They can be reliably removed; the panes will gleam again as good as new. Thanks to its Velcro fastening the pad can quite easily be exchanged. Even winter holds no terrors, as the defroster and additional pad give ice and snow no chance.

Further information about on this subject can be obtained from WOLF-Garten, c/o MTD Products AG in 66129 Saarbrücken.
