

## Press Release

Perfection times five:

### **Brand-new Shears from WOLF-Garten**

#### **Designed for different requirements**

**The choice was never easier! Whether cultivating balcony plants or for professional use: the new shears from WOLF-Garten are tailor-made to deal with quite different requirements. Now different usage areas are distinguished, facilitating precise differentiation and optimal cutting results for each job. Not forgetting pleasant, ergonomic handling.**

For the new season, WOLF-Garten has improved and harmonized its garden shears programme. The range includes the "Basic Plus" special shears, handy herb/plant shears as well as the "Comfort Plus" and "Premium Plus" garden shears. The last two models are both available as bypass- or anvil models.

All shears offer ergonomic grip design for the best possible power application. Of course, a safe hand and thumb-rest position is assured as well as perfect protection and safety for all fingers and hand areas.

The integrated spring is securely attached, enabling the low wear and tear mechanism to continue working efficiently over the longer term. The locking system can be easily used both for right- and left-handed users and prevents the shears locking independently.

The non-stick coated blades substantially reduce the power application required for all cutting jobs. Plant stems do not remain attached, thus avoiding the transfer of disease.

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Europe and Canada.

MTD offers every gardener – whether professional or hobby gardener – a product range from three brands on the European market; CubCadet, WOLF-Garten and also MTD, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum if motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to miniature tractors.
