

Press Release

WOLF Garten EXPERT Tractors

Lawnmowers for all jobs and garden sizes

All-rounders with concentrated power

WOLF Garten's new EXPERT tractor lawnmowers introduce a top class of motorised garden vehicles. Thanks to comfortable and user-friendly hydrostatic motors, and especially the small turning circle – unique in comparison to other tractor mowers – the vehicles are easy to manoeuvre even across rough terrain. Additional special features are the multiple and well-designed functions and extras that offer top performance and comfort.

Full technical expertise is reflected by the concentrated power of these all-rounders – for all jobs and garden sizes.

The tractor mowers with robust anti-vibration frame and cast iron front axle are equipped with high-value Kawasaki V twin motors that are high power and also quiet.

The quick-change system "FastAttach" can be used for all rear as well as front attachments. Disassembling the trap basket is also extremely easy – at the push of a button.

Other comfort features that give EXPERT mowers more comfort include spring-assisted cutting height adjustment, high capacity trap basket and an anti-blocking device. A special friction clutch ensures gentle activation of the mower and is controlled by V-belts.

EXPERT mowers are exclusively produced using ultra stable materials.
