WOLF-Garten – The new GT-S-2-27

Petrol brushcutter for every task

Powerful motor with doubly suspended driveshaft

The new GT-S-2-27 petrol brushcutter from WOLF-Garten comes with a doubly suspended driveshaft for more durability, less vibration and lower emissions. In addition, the innovative two-stroke is equipped with the Easy Start System.

Right at the back of the garden, where the bushes are and the nettles are sprawling out, where no cable reaches. Exactly where power is needed, scything by hand is a chore and a punishment combined.

In fact, the 27 cubic centimetre has a performance level of 0.75 kW at 8000 revolutions per minute. That is 1 horse power. The “Easy Starting System” is comfortable and allows you to forget long, annoying starting. In addition, the scope of delivery includes the “Drill and Start” kit. By using a battery-powered screwdriver, the motor is started like with an electronic start.

Thanks to the dual-cord technology, the cutting diameter is dimensioned to 46 cm. The 2.4 mm thick cord is automatically replaced and kept at the right length. Thanks to the “Speed Feed System”, it can be replaced quickly and practically. The J-formed frame for relaxed ergonomically oriented work ends in the anti-vibration handle. Even longer applications are not energy-draining. The robust shaft can be separated and the tool weighs a total of 7.5 kilogrammes. When purchased, it comes with the shoulder strap, ear protection and safety glasses, “all-inclusive” for the motor trimmer.

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Europe and Canada.

MTD offers every gardener – whether professional or hobby gardener – a product range from three brands on the European market; CubCadet, WOLF-Garten and also MTD, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum if motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to miniature tractors.
