WOLF-Garten – Robo Scooter 500:

The Robot for the small garden

Mowing times can be easily programmed

With its new robot mower, WOLF-Garten presents the ideal helper for large and small gardens alike. They cut cleanly along the edge of the grass and, thanks to the powerful motors and robust blades, are also suitable for long grass.

The Robo Scooter 500 is able to mow for an astounding three hours and twenty minutes as it glides around the lawn, cutting grass to the perfect height, as if guided by an invisible hand. Only then does it need to return to its charging station to “fill-up” before returning to the task in hand. The “little” robot from WOLF-Garten is ideal for the smaller garden, which is still able to have an area of up to 500 square metres.

The lane, which is cleanly cut by the blades to heights of between 20 and 80 mm, is 20 cm wide. The cutting width is 1 cm outside the wheels. This allows the edges to be drawn both effectively and cleanly. Naturally, the boundary wire is included in the scope of delivery.

A powerful 150 Watt is provided by the blade motor, which is driven by 24 Volt batteries and it manages 5800 revolutions per minute, Long grass is therefore no problem. Even at that, the guaranteed noise level is below 80 decibels, on average 77.2 decibels. That is still low-noise in comparison to other mowers. Rain, bump, lift and tilt sensors are standard and give the Robo Scooter a high level of independence

Press Release

and reliability for its category. The device has effective theft-protection as it is secured using a PIN code and an alarm system.

If required, the LCD display is illuminated. There is even the possibility to obtain a remote control as an optional extra. Even the mowing times can be easily programmed.

The special mulch system processes the cuttings cleanly; all that remains is a well-tended lawn. The fully-automatic helper weighs in at only 17.6 kilos – including batteries.

Further information about on this subject can be obtained from WOLF-Garten, c/o MTD Products AG, 66192 Saarbrücken.
