Duscholux – Prime-line Sparkling

Sparkling Bathing Fun

Air system as quiet as a whisper

with colour light changer

Prime-line Sparkling from Duscholux is a modern and revitalising wellness bath. 24 whisper jets give that Champagne effect on the skin! Available as a freestanding oval bathtub with or without music system, but always with ten LED spotlights including colour changer.

Luxury need not be expensive! The Prime-line Sparkling version of the Duscholux freestanding oval bathtub is proof of this. The purist and elegant design promises modern and revitalising bathing enjoyment. The appearance and functions of the air system – as quiet as a whisper – are perfectly streamlined, and all this for a particularly pleasing price-performance ratio. The unit also meets the highest sound insulation standards.

24 whisper jets emit countless fine revitalising massage bubbles for sparkling relaxation and water enjoyment. The system is so quiet you can also enjoy simultaneous soft music or read a good book. Ten LED spotlights are connected to a manually operated light colour changer. Underwater ambiance lighting therefore creates uniquely relaxing lighting.

Prime-line Sparkling is also available in the music version with MP3-player and USB stick. The bathtub is connected to two concealed audio speakers, which are not visible to the user, and are the sound source for pleasant and easy listening entertainment.

An easy-to-use touch-sensitive keypad operates the light, air and music system. But there are more pleasing details – the acrylic bathtub has a special ergonomic design with two backrests inviting two people to share bathing enjoyment.

With external dimensions of 2000 x 900 x 600 millimetres, the Prime-line Sparkling has water capacity of approx. 200 litres. Based on the Prime-line Free model, this enhanced version has the air and music system. The whirlpool-fan has a capacity of 40 Watt. The drain and overflow fitting is a Viega Multiplex, optionally with the inlet Multiplex Trio. The freestanding bathtub has vents for sucking in air and is delivered fully pre-assembled. Quick installation means there is no delay to the start of an enjoyable bathing experience.
