

## Presseinformation

### New from Cub Cadet

## Mini-Rider compact and nimble

### Lawn-mowing with easy drive and no walking!

**Modern design, versatility and ultra mowing comfort – just a few plus points of the Cub Cadet CC 114 TA/TD. The compact and nimble mini rider with electric start is fitted with a powerful 420-cm<sup>3</sup> Cub Cadet motor. Whether bagging, discharging or mulching jobs, this mower always delivers impressive results. Due to the highly compact construction the Mini Rider also hardly needs more garage space than a walk behind mower.**

The Transmatic transmission makes it possible to change gear without stopping. All that is necessary for selecting the drive direction and speed is to adjust a lever – and you're ready to go! The Cub Cadet Mini-Rider offers the option to choose between six forward and six reverse speeds.

The user can choose between bagging, mulching and discharging for the model CC 114 TA, or mulching and discharging for the model CC 114 TD. Both devices have top mulching performance and the 114 TA has exceptional collecting capacities. If the clippings should be spread on the area, it is possible to use the side discharge.

The powerful and reliable Cub Cadet single cylinder motor has enough reserves to master any situation. The overhead valve technology, cast iron cylinder, ball bearings on the crankshaft, electronic ignition and many other state-of-the-art features make this engine a long-life and strong heart of the Mini-Rider.

## Presseinformation

The large 4.9 litre capacity fuel tank with fuel indicator gives the option to mow the lawn in a single step without stopping for refilling the tank.

The large tyres protect the lawn surface while still giving good grip even over rough terrain. A tight turning radius enables even better manoeuvrability.

The cutting height can be simply adjusted to five positions from 38 mm to 95 mm. Both levers are ergonomically fitted on the right-hand side of the seat. The 200 l grass collector sack with cover (Model CC 114 TA) has grips and fill indicator. It can be emptied from the driver's seat.

The adjustable seat can also be repositioned to suit the personal and optimum seating position for added comfort. The rubberised steering wheel offers maximum comfort. The steering column is height adjustable and can be easily and comfortably adjusted to match the driver's height. The step-through with anti-slip mat ensures easy ascent and descent and a comfortable foot position.

The new Mini-Rider is available from € 1350,00 by specialist Cub Cadet trade stores.

For more information on the Cub Cadet Mini-Rider, please contact MTD Products AG, 66129 Saarbrücken.

## Presseinformation

founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Europe and Canada.

MTD offers every gardener – whether professional or hobby gardener – a product range from five brands on the European market; MTD, GUTBROD, YardMan, Cub Cadet and also WOLF-Garten, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum of motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to miniature tractors.
