WOLF-Garten – Shovel AS-E

Making digging jobs light work

Ergonomically designed devices for the garden

A new dimension for digging jobs using the spade launched by WOLF-Garten thanks to its new AS-E digging shovel. With an ergonomically shaped handle and D-grip for double-handed use and perfectly styled even for major gardening jobs.

Ahead of the gardener or builder is terrain reaching way into the distance –and there's loose earth to clear. Gone are the days when a straight wooden handle with uncomfortable T-grip made these jobs hard work and the slim blade pressed on the sole of the foot. With the AS-E from WOLF-Garten, a brand-new device has been designed to relieve back strain and can be stored in the gardening equipment shed.

The AS-E shovel has a curved, 1.32 metre-long handle manufactured from stainless steel. It finishes with a D-grip large enough to use with both hands and the efficient application of power. The grip zone is ergonomically shaped and comes with slip-proof rubber coating for optimal and comfortable use. This enables even large quantities of mulch or piles of sand to be moved. A special detail is foot rests at the top of the blade, which minimize the risk of injury, and also ensure greater power transfer.

The WOLF-Garten AS-E shovel is available for € 42.99 from DIY centres, garden centres and specialist traders.

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Europe and Canada.

MTD offers every gardener – whether professional or hobby gardener – a product range from five brands on the European market; MTD, GUTBROD, YardMan, Cub Cadet and also WOLF-Garten, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum if motorised garden tools; from electric lawnmowers to motor hoes and snow blowersall the way up to miniature tractors.
