New from WOLF-Garten – Telescopic lopper

A powerful lightweight

Better performance with new design

With an innovative and improved cutting system, WOLF-Garten upgrades the performance of the new telescopic lopper Power Cut RS 900 T. Branches measuring 50 mm thick are no problem – thanks to the stylish garden tool with modern design. The high-tech tubes made from robust aluminium introduces a new trend.

It's time to cut the fruit trees or to thin out dense shrubs – the new Power Cut anvil lopper from WOLF-Garten is a perfect garden aid. Thanks to the improved cutting head technology, the power transmission for this top model is four times as powerful. The system is a major achievement from WOLF-Garten engineers – in future, handling branches up to 50 millimetres thick is no problem. The new high-tech tubes with updated design is made from aluminium. The special epoxy surface finish makes it resistant to knocks and scratches. The three stars Power Cut also has a unique feature – its telescope function. The loppers measuring 65 to 90 centimetres can be used in variable lengths.

The ergonomically shaped soft grips with two plastic components in the handle ensure a safe handling position – arms will not fatigue so quickly.

The WOLF-Garten anvil lopper Power Cut RS 900 T is available for € 69.99 from DIY centres, garden centres and specialist traders.

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Europe and Canada.

MTD offers every gardener – whether professional or hobby gardener – a product range from five brands on the European market; MTD, GUTBROD, YardMan, Cub Cadet and also WOLF-Garten, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum of motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to miniature tractors.
