New from WOLF-Garten

3-in-1 Scarifier

Five petrol- and electro-powered tools

WOLF-Garten now offers new scarifier from its Ambition series as so-called 3-in-1 devices. So three different work phases can be completed at one go: raking moss, scarifying, and collecting the scarifiers material. This not only saves time but muscle power! The tools are available in five models as electronic and petrol scarifiers.

Even if your lawn does not need to be regenerated, you should occasionally spend some time looking after it. Scarifying ensures good ventilation and you also combat lawn thatch, an ideal source of nutrients for harmful fungi and mosses. Vertical cutting with the spring blades through the sward produces the desired ventilation effect.

The new WOLF-Garten 3-in-1 scarifier from the Ambition series have fixed blades that can be adjusted centrally. Regardless of the model the transport position can be set from the handle. The pult handle combined with the full bail switch relieve pressure on the back when scarifying. To save space for storage in the garden shed, the handle can be fully folded away using a quick-fastener. The comfortable carrying handle ensures it is easy to transport back home.

The three Ambition electronic scarifiers are mainly distinguished in terms of performance and working width. They are available with powerful motors from 1,300 to 1,800 Watts and in working widths from

Presseinformation

30 to 37 cm and with collector bag with a capacity from 35 to 50 litres from € 129.99.

For large lawn areas and frequent use, WOLF-Garten offers the Ambition petrol scarifiers for fast and comfortable scarifying. You can choose from two different models mainly distinguished by the working width of 35 cm and 38 cm and the corresponding number of blades. The capacity of the collector bag is 45 or 50 litres.

The petrol scarifier is available from € 449.99.

All scarifiers are available from specialist traders, in DIY centres and garden centres.

Incidentally: WOLF-Garten also offers scarifiers without motors – recommended for small lawn areas.

More information about this topic is available from WOLF-Garten, c/o MTD Products AG, 66192 Saarbrücken.
