

**Presseinformation
From MTD:**

Optima mower for large areas

**Ideal for large parkland areas with difficult access and
trees and shrubs**

Do you have a large and sloping lawn area and no enthusiasm or energy for pushing a heavy lawn mower? Then the wheel-driven Optima large surface mower from MTD is just right. This mower has unique performance parameters and combines the power and durability of a tractor mower with the principles of a petrol mower.

Robust and reliable –the 344 cm³ 6.5 kW B&S-OHV motor effortlessly powers the machine using four forward gears and a reverse gear. The 7.5 l-capacity fuel tank supplies sufficient power for large areas. The Optima has two separate clutch levers for driving and the mowing deck.

The ultra quiet mowing deck has a working width of 84 cm as well as a central height-adjustable cutting unit with 9 settings from 25–100 mm. The 2-in-1 technology facilitates mulching and also side discharge.

Despite its robust construction, the 120-kg Optima large area mower is easy to move for everyday use. This is due to the zero turning radius via differential axles and the ball bearing equipped pneumatic tyres. The front wheels are 200 mm in diameter and at the rear driving

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Europe and Canada.

MTD offers every gardener – whether professional or hobby gardener – a product range from five brands on the European market; MTD, GUTBROD, YardMan, Cub Cadet and also WOLF-Garten, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum if motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to miniature tractors.
