New from MTD

Two trimmers with Kawasaki motor

Low weight and a full accessories kit

MTD now presents two new motorized trimmers with Kawasaki motors. The long-life 2-stroke machines are powered with 1.0 and 1.4 kW and are fitted with the “AST” easy start system.

The so-called full crank engines offer a range of advantages from reduced vibration, tighter tolerances and a longer life span. In addition, they have an excellent balanced, double mounted driving shaft.

Thanks to the “AST” start system, starting the trimmer motors has been revolutionized by rip cord: the “Advanced Starting Technology” or AST supports the starting process by means of springs the starting cord need only be slowly and evenly pulled. The motor then starts independently.

Not only the motors distinguish the two new MTD motorized trimmers. The low weight of 7.8 or 8.6 kg is among the best features. Included in the delivery scope both models have the intuitive and functional cutting head construction and double string technology with a working width of 42 cm as well as three-tooth cutting blade with a diameter of 25.5 cm.

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Europe and Canada.

MTD offers every gardener – whether professional or hobby gardener – a product range from five brands on the European market; MTD, GUTBROD, YardMan, Cub Cadet and also WOLF-Garten, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum if motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to miniature tractors.
