

## Presseinformation

### WOLF-Garten – Premium grass

#### Only the finest

#### Healthy green meeting the highest expectations

**Every garden owner dreams of a healthy green and dense lawn surface whether a large or small area and with a variety of trees. Shadow lawn from WOLF-Garten is a top product from our lawn research specialists that meets the highest expectations of a healthy green dream lawn!**

The premium product isn't called "Shadow lawn" by accident –it contains the only type of grass that permanently responds well to shady locations. The high lawn density with about 90,000 shoots per square metre is outstanding. This makes the lawn surface especially stress-resistant, extremely dense and resilient regardless of whether you are hosting a large garden party or the first training sessions for the upcoming football world champion!

The exceptional resilience to extreme shade ensures that green areas constantly thrive even in zones usually prone to bald patches beneath trees and shrubbery, for instance. The special mixture also ensures a balanced, healthy and consistent appearance.

The effective combination of Vital Active with its root activator improves stress resistance against dryness, wet and cold conditions and optimises the absorption of nutrients.

Despite these unique qualities, there are up to 40 per cent less cuttings than for cheap seed.

MTD, the “Modern Tool and Die Company”, with its headquarters in Cleveland, Ohio is the world’s largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Europe and Canada.

MTD offers every gardener – whether professional or hobby gardener – a product range from five brands on the European market; MTD, GUTBROD, YardMan, Cub Cadet and also WOLF-Garten, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum if motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to miniature tractors.
