MTD Hedge Shears

Diamond Cut Blades

Anti-Vibration System for Powerful Helpers

The GHT 55-28 is a powerful set of hedge shears in the MTD range. They are simple and safe to operate. The anti-vibration system gives them the necessary comfort, even when you have a lot of hedge to cut.

Whether thuja or hornbeam, cherry laurel or boxwood – every hedge needs a regular cut. And if your hedge is a bit longer, then the amateur gardener will be pleased to have a power-driven helper without any tangle of cables. MTD has the ideal machine in its range in the form of the GHT 55-28.

The low-vibration two-cycle engine with 0.7 kW output drives the two parallel blades powerfully. The sharp blades are laser-cut and diamond-cut. The anti-vibration system provides comfort. And the quick blade stop function ensures safety. It takes less than half a second until the machine is fully stopped.

The teeth have an interval of 28 mm. In combination with the cutting length of 55 cm, this allows precise cuts and good handling to ensure the required hedge design. The 180° rotating rear handle also contributes to ensuring work is comfortable in various positions.

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is one of the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Mexico, Asia and Europe.

MTD offers every gardener – whether professional or hobby gardener – a product range from three brands on the European market; Cub Cadet, WOLF-Garten and also MTD, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum of seeds, fertilizers, hand garden tools and motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to ride-on mowers and lawn tractors.
