

## Press Release

### MTD Front Tine Tillers

## Fine Crumbling of the Soil

### Simple Transportation due to Folding Wheel

**If you have a lot of soil to work through, you're bound to rejoice about the front tine tillers from MTD. Thanks to the powerful engines, they can crumble the soil finely. The transport wheel can be removed without tools and is folded up easily.**

Square metre upon square metre of solid soil and your arms will ache from hoeing. But without this step, successful gardening is virtually impossible. The front tine tillers from MTD are perfect for large areas.

They are drive by powerful MTD ThorX OHV petrol engines. The drive train is reliable and stable and the gears are maintenance free.

The transport wheels are a special feature. They can be removed without the need for tools and can be folded up for work. In the working position, the wheel suspension is used as a height-adjustable hoeing spur. The spring steel front tine tiller blades are self-sharpening and easily crumble the soil.

The Front Tine Tillers T/245 and T/380 M are equipped with special plant protection shields which keep the tines off young seedlings.

The T/205 has a working width of 40 cm and the engine output is 2.0 kW.

## Press Release

The T/245 with a 3.3 kW output works with a width of 66 cm.

The T/330 M is designed on a working width of 33 and 61 cm, while the engine has a 3.1 kW output.

With the same engine, the T/380 M can even manage a width of 81 cm. All MTD front tine tillers have tine tiller blades with a diameter of 30.5 cm.

The T/330 M and T/380 M also have practical accessories such as iron wheels for better traction. Ridging bodies to pile up plant rows, potato diggers, wheels for perfect transportation and a cultivator to work through fallow areas or dig compost into soil.

More information about this topic is available from MTD Products AG, 66129 Saarbrücken.

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is one of the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Mexico, Asia and Europe.

MTD offers every gardener – whether professional or hobby gardener – a product range from three brands on the European market; Cub Cadet, WOLF-Garten and also MTD, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum of seeds, fertilizers, hand garden tools and motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to ride-on mowers and lawn tractors.
