MTD SMART Lawn Tractors

Powerfully through the Grass

Incredibly Flexible and with an Ergonomic Design

MTD has designed a completely new range of lawn tractors – the SMART models. They are available as rear and side dischargers. They are characterised by the ergonomic design, small turning radius and a spring-mounted driver's seat for more comfort.

Big, bigger, park – you need a bigger machine to mow lawns of more than 2,000 square metres. A lawn tractor is ideal, combining comfort and performance. With the SMART lawn tractors, MTD has designed a whole new range, seven powerful helpers for large gardens.

Depending on the model, they are equipped with Briggs & Stratton PowerBuilt™ or 420 cubic centimetre MTD ThorX OHV engines ranging from 5.9 to 9.1 kW. The Transmatic drive with six gears allows you to “shift on the go”. The two H-models have a Hydrostat drive for comfortable power transmission.

The step-thru frame makes it easy to mount and dismount. The spring-mounted driver's seat is the right feature for comfortable working, even over long periods of time. The mower coupling and height adjustment mechanism can be operated with two handles.

The entire design has been conceived with ergonomics in mind.

Press Release

The mowing options are 3-in-1: Discharge, bagging and optional mulching with cutting widths of 76 to 107 centimetres.

Only the 76-centimetre SMART RC 125 mower operates as a 2-in-1, without the mulch function. With a turning radius of just 46 centimetres, the SMART lawn tractors are very flexible. And extensive accessories are also available.

More information about this topic is available from MTD Products AG, 66129 Saarbrücken.

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is one of the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Mexico, Asia and Europe.

MTD offers every gardener – whether professional or hobby gardener – a product range from three brands on the European market; Cub Cadet, WOLF-Garten and also MTD, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum of seeds, fertilizers, hand garden tools and motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to ride-on mowers and lawn tractors.
