MTD OPTIMA Lawn Tractors

Power for Gardens and Parks

MTD is adding New Models to the Range

The new models of the OPTIMA range score major points in large gardens. The output of their powerful engines is transmitted to where it is needed through an easy-to-operate Hydrostat drive. They are available with rear and side discharge.

If your lawn is more than 2,000 m², you should have a lawn tractor. The new models of the OPTIMA range are ideal, powerful helpers for a range of requirements and demands. The spring-loaded driver's seat is comfortable, even during long journeys and over large areas. The step thru frame makes mounting and dismounting easier.

Depending on the model, Briggs & Stratton PowerBuilt™ or Intek OHV engines provide an output of between 9 and 12.5 kW. All models are equipped with the comfortable Hydrostat drive, which transmits power in the optimal way. With just 46 cm, the turning circle is tremendously small, while the tractor is very flexible.

There is a selection of four versions for the cutting width: 92 and 105 cm with rear discharge and 96 and 107 cm with side discharge. The ideal conditions for lawns with a size of 2,500 to 4,000 m².

Press Release

With two handles in the direct reach of the operator, the mower and height adjustment mechanism can be easily operated in five steps from 3.0 to 9.5 cm. The side dischargers offer discharge and mulching together with optional bagging. The rear dischargers, on the other hand, offer bagging with optional mulching or discharge.

The OPTIMA vehicles are supplied "ready-to-go". This means they are as pre-assembled as possible when they are delivered to you. The range of accessories is extensive, from trailer to dozer blade.

More information about this topic is available from MTD Products AG, 66129 Saarbrücken.

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is one of the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Mexico, Asia and Europe.

MTD offers every gardener – whether professional or hobby gardener – a product range from three brands on the European market; Cub Cadet, WOLF-Garten and also MTD, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum of seeds, fertilizers, hand garden tools and motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to ride-on mowers and lawn tractors.
