MTD Sweeper

Sweep in the Summer, Clear in the Winter

Robust and Reliable Machine for All-Year-Round

Whether rollers or dozer blade, the Optima PS 700 is a sweeping and clearing machine for all year round. With five forwards and two reverse gears, it is extremely powerful and flexible, even for areas that are greater than the garage driveway.

Whether courtyard or park, in both summer and winter, cleaning is an exhausting task. You'll soon be sweating if you're armed with just a brush and shovel. So it's good that MTD has a versatile machine in its range in the form of the Optima PS 700.

The powerful and reliable MTD ThorX engine with 3.9 kW output has an outstanding start function, which is particularly important during the cold season. With five forward and two reverse gears, the power is optimally and flexibly applied. The sweeping roller has three lateral settings. It oscillates, following uneven ground. The stable swivel wheels are equipped with a sweeping roller lifting function.

The dozer blade can be fitted in the winter. This is one of the available accessories, along with the debris container. Thanks to the plastic powder coating, corrosion protection is optimised for a long life.

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is one of the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Mexico, Asia and Europe.

MTD offers every gardener – whether professional or hobby gardener – a product range from three brands on the European market; Cub Cadet, WOLF-Garten and also MTD, which covers nearly every application in the garden. Every brand makes its mark through individuality and unmistakable optic. All of the brands compliment a wide spectrum of seeds, fertilizers, hand garden tools and motorised garden tools; from electric lawnmowers to motor hoes and snow blowers all the way up to ride-on mowers and lawn tractors.
