

Press Release

New from WOLF-Garten

Newly Developed Electric Mower Range

The Quiet Light-Weights are coming

Bring on the growth. WOLF-Garten is launching a whole electric mower range on the market for the upcoming lawnmower season. The committed hobby gardener can choose between different cutting widths and search for the best solution for the regular maintenance of their lawn.

Especially after the winter, the first cut is important. For smaller lawns, the electric mower is the right choice. For the upcoming season, WOLF-Garten has designed a new range, which is tailored to individual challenges. Size, power and weight can vary, but the quality is consistently outstanding. This includes the special features, such as the folding and height-adjustable handle with soft grip for a comfortable, secure hold.

The CCM system with mulch function and the Advanced Cut and Collect System are included with all three models. The central cutting height setting allows six lengths ranging from 2.5 to 7.5 centimetres. All three also include the bag fill indicator and trademarked "Flick Flack[®]" cable guide.

The different diameters of the front and rear wheels (150 and 200 millimetres) make it easy to control, even on difficult terrain.

The A 340 E has a 1400 watt WOLF-Garten E-Power engine. With its cutting width of 34 centimetres, it is ideal for lawns of up to 250 square

Press Release

metres. The grass catcher bag holds 30 litres; with a weight of 14 kilogrammes, it can be handled easily, even round tight curves. The A 340 E costs a modest 149.99 Euro.

A size up is the A 370 E with a cutting width of 37 centimetres, ideal for lawns of up to 350 square metres. Its WOLF-Garten E-Power engines has a whopping 1,600 watt output. At 17 kilograms, it is a light-weight. The grass catcher bag is intended to hold 40 litres of grass. The A 370 E is available for 189.99 Euro.

The A 400 E is the strongest in the new electric mower range. Its WOLF-Garten E-Power engine outputs a powerful 1,800 watts. With a grand cutting width of 40 centimetres, it is suitable for surfaces of up to 450 square metres. The 45 litre grass catcher bag is generously dimensioned. The A 400 E weighs 18 kilograms and is available for 239.99 Euro.
