

## Press Release

Exclusively from WOLF-Garten

### **Deep Green Lawn without Moss and Weeds**

#### **The Long-Term Fertiliser for the Highest Demands**

**Only from WOLF-Garten: Long-term lawn fertiliser LD 700 A is now available in a resealable bag with spout. The bag with a content of 11.2 kg is enough for a luscious 700 square metres and provides your lawn with all the necessary nutrients for eight to ten weeks. But watch out, this is a special offer, only available for a limited time.**

The grass in your garden is rich and deep green. And that's how it will stay over the next eight to ten weeks. The combination of instant and long-lasting nitrogen forms ensures consistent and demand-based feeding of your grass. The dosed release of nitrogen guarantees a long-lasting effect, preventing surge growth. The balanced combination of nutrients ensures the lawn is consistently fed.

The LD 700 A bag for 700 square metres is resealable. The convenient spout makes work easy. The bag with its integrated handle is especially user-friendly. The fertiliser can easily and safely be transferred into a spreader using the spout opening. The zipp-lock is particularly practical. Gardeners can open and close the package as often as they need.

The long-term lawn fertiliser (LD 300 A) for 300 square metres in a bucket – new - costs 15.99 Euro.
