New from Greenworks

Mobile 40V battery air compressor

Fast at any location

Around the house and yard you need an air compressor to inflate tyres, inflate inflatable castles or paddling pools, inflate footballs or clean the workbench with compressed air. But unfortunately the heavy equipment is never where you need it. For this purpose Greenworks now offers a battery-powered 40V air compressor, which can be quickly taken to the place of use.

The maximum pressure is 8 bar, the air flow 40 l per minute. The two litre tank volume is sufficient for most jobs and that cordless. The 0.3 HP pump is oil-free, which means little maintenance. The weight of the compressor is only 6.5 kg.

The scope of delivery includes compressed air hose, tyre pressure gun various filling nozzles, blow gun, integrated pressure reducer, condensate drain, pressure relief valve and quick release for the compressed air hose.

One battery for all Greenworks 40V units

The Greenworks 40-volt rechargeable battery system for garden tools is as simple as it is ingenious: two rechargeable batteries for different applications and different performance classes ensure long service life and constant battery performance. The 4Ah and 2Ah batteries fit all Greenworks 40V devices. From the hedge trimmer to the garden hoe to the motorised wheelbarrow. They are particularly powerful, lightweight, environmentally friendly, safe, durable and economical.

Handling is child's play: just plug it in and get started. And that's how charging works. LEDs on the charger indicate when charging is

complete. Four LEDs on the battery also indicate the remaining battery life at the touch of a button.

The batteries can be recharged at any time and without memory effect and remain permanently charged so that they are immediately ready for use even after long, proper storage.

Further information on this topic is available from Greenworks Tools, 50996 Cologne, Germany.
